

New Image for Care Assistants

Homecare are pleased to announce the introduction of a brand new uniform for our care assistants. The staff themselves were instrumental in bringing about this change.

The new uniform consists of:

White Tunic with black and orange piping

Black Trousers

Black flat shoes/black trainers/black boots

ID Badge

We are in the process of delivering the new tunics to our staff. As our Care Assistants are a representation of Homecare within the community, we expect them to look professional at all times, leading to a professional attitude with our clients, respect for our Company and provide Homecare with a professional image all round. We hope you like the new look!
