

Newly refurbished housing

Newly Refurbished Housing

Homecare Housing is pleased to announce the opening of five newly refurbished self-contained units in Belfast. We believe that the transformation of our shared accommodation to self-contained flats reflects our desire to ensure that the privacy and dignity of all our service users is respected and upheld. Moreover, the provision of self-contained units permits our service users to develop the skills required to sustain a tenancy and to live independently within their own communities. A number of service users have already moved from shared accommodation into our new units, and are responding well to the increased independence this affords them. Plans are well under way to bring about a similar transformation in our remaining

shared accommodation.

Oliver Mackle
